

PARTS BOX

What Is It and Why Is It important?

If You are moving with Mesa, know where your “PARTS BOX” is.

- Confirm your moving crew has a PARTS BOX and that it is clearly labeled.
- If your moving crew does not have a PARTS BOX, contact your Mesa Move Coordinator right away.

What goes into a PARTS BOX?

- Labeled hardware, small parts and pieces, remote controls, etc.

- The crew will wrap smaller parts in paper and label what it is for; completing this process for any item that gets disassembled.

Why is a PARTS BOX important?

- It's critical to have the right hardware when reassembling items
- Having the labeled pieces all in one place makes it easier at destination.
- The delivery crew will know which small parts go with which large items.
