

# Sustainability with MESA

Sharing our sustainable moving  
practices

## Our solutions for a sustainable future...

### The MESA Commitment

MESA, in partnership with UniGroup is committed to delivering industry-leading transportation solutions. We recognize the importance of protecting our planet and are dedicated to building a more sustainable future for future generations. As a moving company, we are regularly looking for innovative ways to minimize our environmental impact and promote friendly practices throughout our operations.

### Social Responsibility

Social responsibility is central to our mission. We believe in supporting the communities we serve, promoting fair and ethical practices, and contributing to positive change in our industry. Our commitment drives us to create a safe, inclusive, and environmentally responsible place for our employees, clients, and communities worldwide. Together, we can move forward a brighter, more equitable future.

### Safety & The Environment

Our large fleet of vans follows regular maintenance services, including cleaning and system monitoring. MESA is continually learning and growing with ways to reduce our carbon footprint and continue our recycled packing materials program.

- Sustainable Transportation: California Air Resources
- Board Compliance: SmartWay Certification
- Sustainable Operations: Facilities upgrades and compliance with ISO
